

Thesis:

For my appropriation, I plan to craft a narrative about the ways video games have positively impacted me and played a large role in different stages of my life, and how I think they will continue to do so in the future. I plan to do this in a branching timeline of images, gifs, and videos hosted on a webpage I build from scratch. I plan to arrange the narrative so that when the audience scrolls down the page, the timeline advances forward.

Outline:
